

EthosGPT | Whose values guide technological change?

Survey representation → language-model update → possible innovation and adjustment

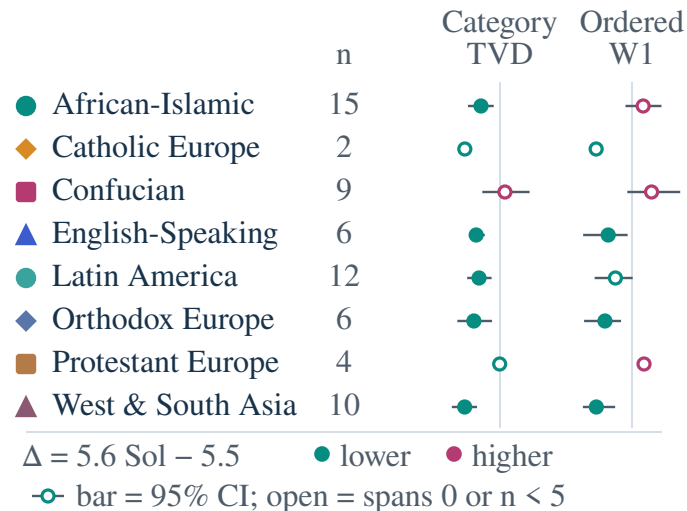

A Where are the sampled countries?

64 countries across eight descriptive cultural-region labels

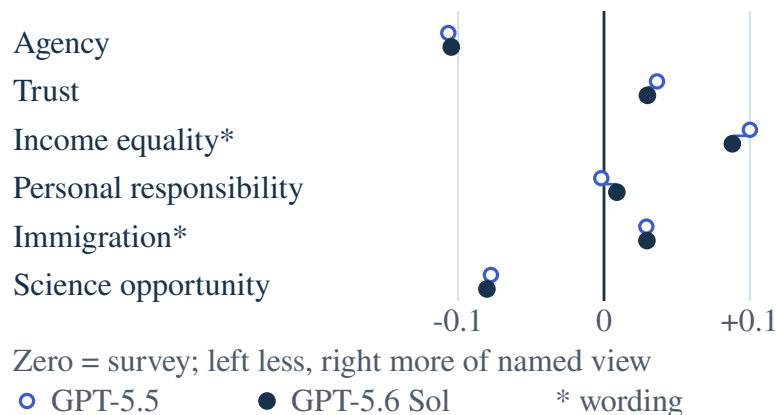

Map marks use the region keys in B; locations are samples, not borders.

B What changed in eight regions?

C Which views differ from the survey?

Signed model – survey · equal-country mean

D Does emphasis change the audit?

Three two-question bundles · weights sum to one
