

From represented values to technological change

Nigeria scores are measured; amber adviser links and outcomes are assumed.

Six-item value profile

Question-specific views, 0–1

Q48 agency + Q159 science

Q57 trust + Q121 immigration

Q106 equality – Q108 provision

Assumed adviser choices

Not estimated from behavior

➔ Innovation support (i)

➔ Cooperation (s)

➔ Transition assistance (a)

Quality ladder

Aghion–Howitt mechanism

Old method

New method
higher quality

$\lambda = .05 + .20i + .10s$ (arrival)

$G20 = 20\lambda \ln 1.04$; $U = 100\lambda(1-a)$
