

● Cumulative innovation gain

■ Mean worst-group needs

..... Reference parameter

First / reference / last parameter

G 1.640 / 1.287 / 1.036

Needs (%) 25.52 / 5.65 / 1.05

First / reference / last parameter

G 2.097 / 1.665 / 1.368

Needs (%) 31.56 / 6.75 / 1.05

First / reference / last parameter

G 0.798 / 0.007 / 0.005

Needs (%) 15.49 / 0.20 / 0.12

Every point reoptimizes the same problem. Numeric keys give first, reference, and last outcomes.

Higher needs penalties reduce growth and needs; Egypt changes sharply near the reference weight.
