

Whose values guide technological change?

Sample coverage → regional and signed changes → measurement weights

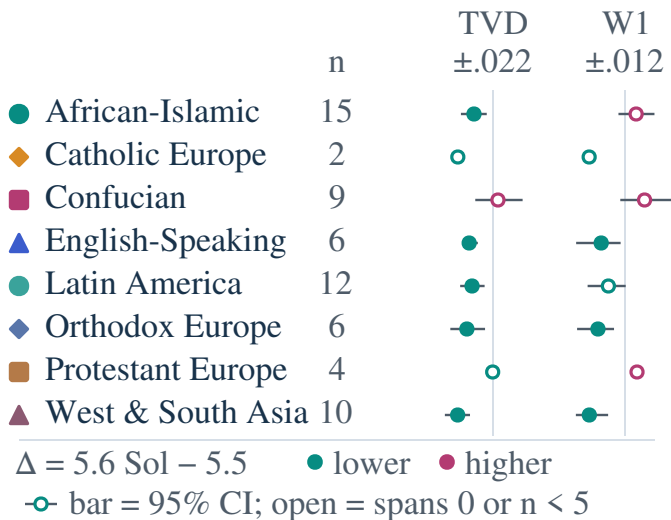

A Where are the sampled countries?

64 countries across eight descriptive cultural-region labels

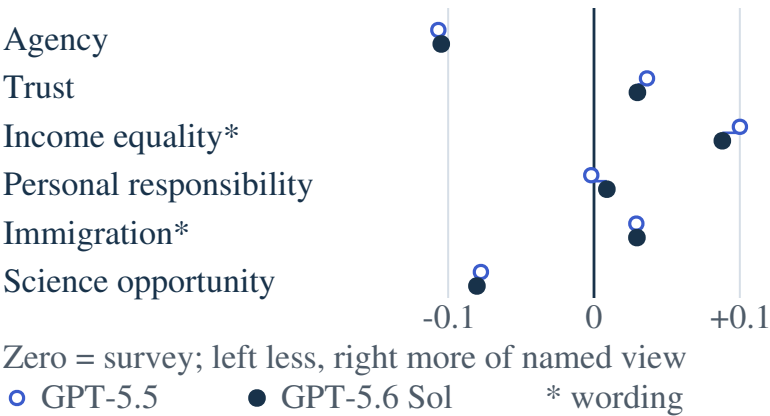

Sample locations; region keys in B.

B What changed in eight regions?

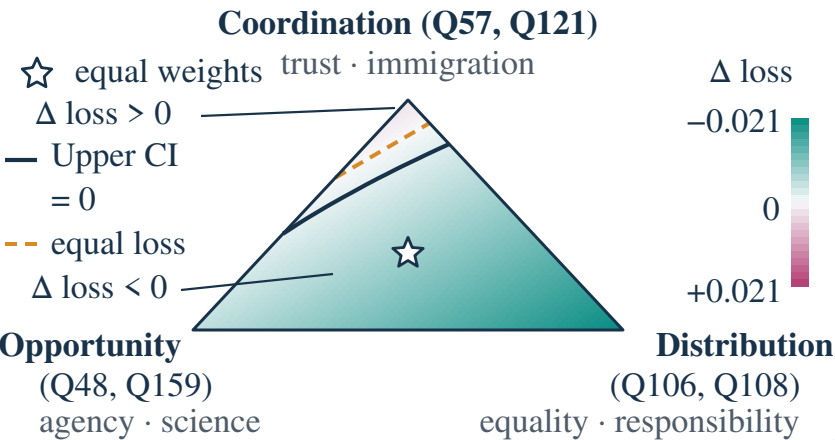

C Which views differ from the survey?

Signed model – survey · equal-country mean

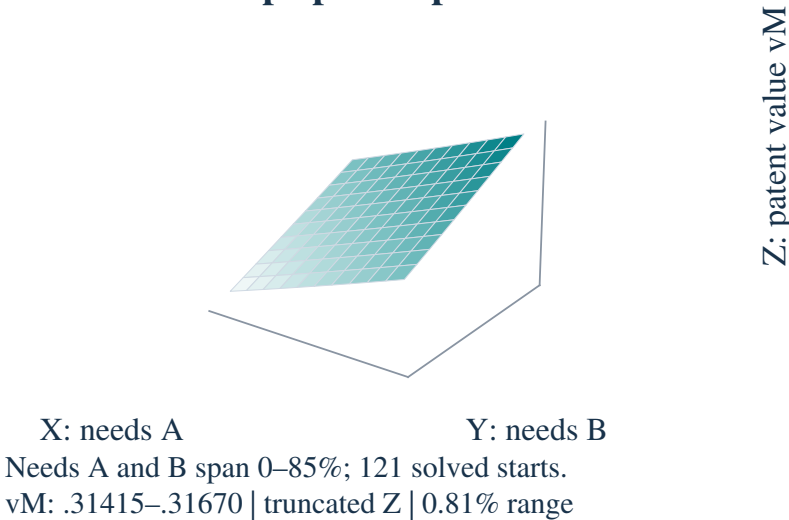

D Does emphasis change the audit?

Three two-question bundles · weights sum to one

Conditional Germany model: market valuation and state-dependent innovation support

E Need states shape patent prices

F Planner feedback and state flow
